

Who is Eligible to Participate:

The BCS Study is open to women aged 18-80 years with a history of breast cancer or without a history of any cancer. Data will be collected primarily via the mobile application, so participants must have their own (i.e. not a shared) mobile device / smartphone that can support the application. Participants must be fluent in and able to read English, must be able to provide informed consent and be willing to follow study procedures.
